The Kiowa County Noxious Weed Department uses the methods adopted by the Kansas Department of Agriculture to control each type of plant designated as a noxious weed. Typically, these methods involve the application of herbicidal chemicals, which can be toxic to humans, animals, and other plants. Although, Kiowa County personnel make every effort to effectively treat noxious weeds on private land without causing unintended damage or injury, there always exists the potential risk of damage or injury to persons or property as a result of such treatment.

By signing below, you agree to pay the costs of the treatment of this Request, which may ultimately be more or less than the amount estimated above, and to assume the risk of accidental damage or injury and to indemnify, defend and hold harmless Kiowa County, its officials, agents, employees, and volunteers from and against any claims, damages, costs, expenses, or liabilities arising out of or in any way connected with this Request, including, without limitation, claims for loss or damage to any property or for death or injury to any person or persons.
